

What a bright idea!

TRY THIS WITH YOUR CHILD:

Act it Out

Act out an article in today's newspaper. Two individuals may read the same story aloud for different effects. Explore how it can be "slanted" through voice interpretation, facial expressions and body language.

Standards Link: Speaking Applications: Read stories out loud, speak clearly.

There's a world of fun & learning in the newspaper every day! Visit our Bright Ideas Lesson Library for hundreds of math, science, social science and language arts activities using the newspaper.
